

Stable-Reliable-Professional

exxDoc

All-in-One online documentation and help system

exxDoc is a web based system that creates online help or product documentation. exxDoc is an multi-author system that allows editing content with multiple authors. exxDoc is multi-lingual and supports multiple databases such as Oracle, SQL Server and MySQL. With exxDoc you can create context sensitive help for your web applications.

Features

✓ **It's online!**

exxDoc is a web based application with all benefits of working online. There is no installation required at the desktop and there are no access roadblocks.

✓ **All-In-One**

exxDoc includes all tools and components for online editing. No other external applications like word processors are required.

✓ **Multiple authors**

exxDoc allows multiple authors working on the same document structure.

✓ **Multiple languages**

exxDoc allows creation of documentation (content) in up to 5 different languages. Users can choose between 4 GUI languages.

✓ **Multiple databases**

exxDoc is a database driven application and supports Oracle, Microsoft SQL Server, MySQL and Microsoft Access (used for evaluation purposes only).

✓ **Import/export content**

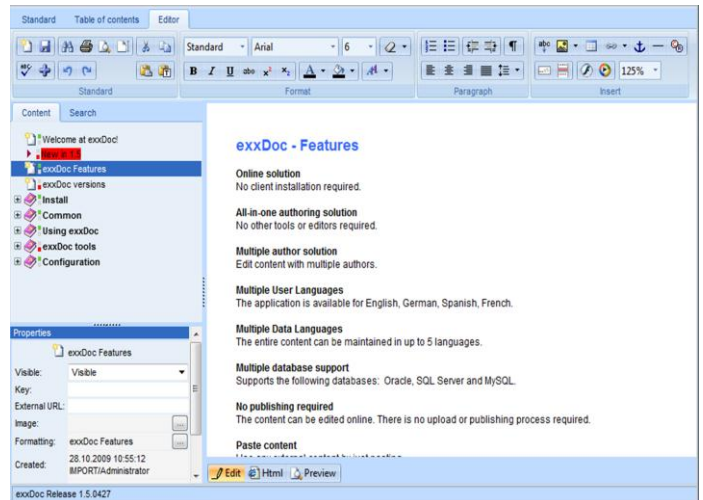

Easily import and export exxDoc content using XML. Share exxDoc content between multiple exxDoc installations.

✓ **Browser independent**

exxDoc can be used by Internet Explorer version 7 or greater and Firefox version 3 or greater.

Versions

Feature	exxDoc Standard	exxDoc Pro
Standard features	X	X
